FORMS+SURFACES®

OUR GLOBAL PRESENCE

FORMS+SURFACES®

ABOUT US

Forms+Surfaces is a leading designer and manufacturer of architectural products used in public spaces around the world. With over 60 years of industry expertise, F+S is highly respected throughout US and other global arenas. To support growing markets in India and beyond, we've established Forms and Surfaces India Private Ltd., a wholly owned subsidiary of Forms+Surfaces, Inc.

Forms+Surfaces India offers a comprehensive range of Surfaces, Wall & Column Systems, Doors, and Elevator Interiors. We have a state - of the - art manufacturing and engineering facility in Pune that supports projects throughout Europe, APAC, and the Middle East.

FORMS+SURFACES®

BONDED METAL™ / BONDED QUARTZ™

Bonded Metal has achieved a place of distinction among high-performance surfacing materials. Providing a striking breadth of design possibilities, Bonded Metal is the product of a unique technology that casts metal granules in a tough, fiber-reinforced polymer matrix. Advanced mold-making techniques assure perfect reproduction of every fine detail in the original patterned surface. The result is lightweight but extremely durable castings with the character and appearance of solid metal. Choose from an extraordinary collection of patterns in a variety of metal finishes. Bonded Metal can be specified for walls, doors, elevators, accents or any application where visual richness and exceptional resistance to wear are requirements. Field-proven for more than 40 years, Bonded Metal is exclusive to Forms+Surfaces.
