

SPACE BEYOND THE EXPERIENCE & IMAGINATION

ELEVATOR INTERIORS

FORMS+SURFACES®

F+S INDIA OVERVIEW

Forms Surfaces is a leading designer and manufacturer of architectural products used in public spaces around the world. With over 50 years of industry expertise, F+S is highly respected throughout India and other global arenas. To support growing markets in India and beyond, we've established Forms and Surfaces India Private Ltd., a wholly owned subsidiary of Forms + Surfaces, Inc. Two manufacturing facilities in India are ISO 9001, 14001 & 45001 certified.

Forms and Surfaces India offers a comprehensive range of Surfaces, Wall & Column Systems, Doors and Elevator Interiors. We have a state-of-the-art manufacturing and engineering facility in Pune that supports projects throughout Europe, APAC, and the middle East. We also have sales offices and expert sales teams in New Delhi, Mumbai, Bangalore, Hyderabad, Cochin, Pune and Chennai.

ELEVATOR INTERIORS

F+S Elevator Interiors and Doors meet the needs of new or modernization projects everywhere. Since introducing our comprehensive program more than twenty years ago, we've become expert in the requirements of elevator interiors. Panel and ceiling weights, energy efficiency, air quality and lighting have increasing importance in today's buildings.

LEVEL-e Elevator interiors were developed to address these issues and meet diverse aesthetic, performance, environmental and budgetary requirements. Complete packages draw on our full surfaces line-up and suit all typical cab sizes and door configurations.

- Pre-Engineered system capability
- In-house finishes
- Globally accepted technical specifications
- Design, engineering and installation support
- Customized Interior/ Designs
- Provide End to End integrated solution
- Comply with applicable Global Safety Standards, Eg; Safety Glass, Emergency Exits in Ceiling, etc.
- Successful installations all over:
 1. India
 2. Asia Pacific
 3. Middle-East
 4. Europe
 5. Australia

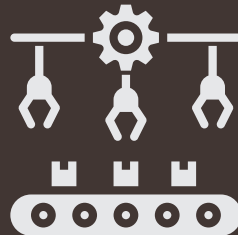

OUR CAPABILITIES

An innovative design company that has offered architectural solutions for public spaces around the world for last 50 years.

DESIGN

Unique finishes and design tools to bring your creative vision to life. Our Elevator Design Studio (EDS) is a comprehensive and time-saving visualization tool that helps you creatively tailor our Surfaces and Elevator Interiors to your project-specific needs.

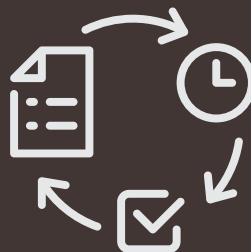

MANUFACTURING

We have a state-of-the-art manufacturing and engineering facility in Pune, with international standard machineries to produce high performance material that supports projects throughout India, Europe, APAC and the Middle East.

CONSULTATIVE SELLING

Our direct sales team across India will provide various solutions to potential customer based on their needs and focusing on the solutions. Sales team will help you to create right elevator interiors for your project using our finishes & EDS.

PROJECT MANAGEMENT

Our qualified engineers across the India, will provide complete support till the end of project. So far, we have successfully completed 1000+ elevator interior projects across India.

ICONIC PROJECT

JIO WORLD CONVENTION CENTRE, MUMBAI

World's Largest Passenger Elevator Interior

COMMERCIAL

Commercial space has multiple floors and elevators play a distinctive role. F+S Elevator Interiors System understands that every building and every elevator is unique. For more than 50 years, we've helped building owners, architects and property managers with beautifully designed elevator interiors systems using our world class finishes.

Express Tower - Mumbai

Frost Tower - San Antonio

Radisson Blu Hotel - Nashik

Lemon Tree Hotel - Mumbai

HOSPITALITY

Forms and Surfaces Elevator Interiors can create design from contemporary to cosmopolitan using our own finishes. Which is more durable and will have a high impact on your guests. As a pioneer, we have worked with many hoteliers across the globe. You can modernize the elevator interior with laminated glass, high durable steel & Fused Metal, high performance bonded metal/ quartz colors. Or you can make a custom interior that perfectly matches the design of your hotel.

Westfield Century City - Los Angeles

1 Sobha Mall - Bengaluru

Nexus Koramangala Mall - Bengaluru

RETAIL / MALLS

Retail/ Mall Elevator Interior is a vital part of any retail project. Well designed elevator interior complements the overall look and feel of a space. F+S will help you to choose the suitable finishes that can meet the designer and developer's expectations. A seamless experience which customers enjoy when moving through the building and using the well-designed elevators.

RESIDENTIAL

The Residential elevator car is the most customizable portion of a residential apartment. This will set the tone of the entire project. Being the pioneer of elevator interior, we can design walls and ceiling using our world class finishes. It will give you the opportunity to add new shades to your elevators. Our expertise has the skill and experience to make your vision a reality.

DLF Kings Court - New Delhi

Ajmera i-Land - Mumbai

Level Up Akshaya Homes - Chennai

The World at Jubilee Hills - Hyderabad

ELEVATOR INTERIOR - SURFACES

Our Surfaces are the basis for unlimited creative expression. Offering a robust visual vocabulary for walls, columns, elevator interiors and more, they're as diverse as the applications for which they're used and can be tailored to the needs of today's public spaces.

BONDED METAL

Bonded Metal is the product of a unique technology that casts metal granules in a tough, FRP matrix. Field-proven for more than 50 years, Bonded Metal is exclusive to Forms + Surfaces. Color options include Bonded Aluminum, Bonded Bronze and Bonded Nickel Silver; patina options are Natural or Dark.

WOOD VENEER

Combines exceptional durability with the warmth and richness of real wood.

- Available for use in our Elevator Interiors
- Standard wood veneer and high gloss finish options available
- Four premium wood veneer options

BONDED QUARTZ

Bonded Quartz incorporates ceramic microspheres in a fiber reinforced polymer matrix. This combination yields incredibly durable & lightweight casting that have a stunning surface appearance and are easy to clean.

The standard colors for Bonded Quartz are White and Charcoal.

FUSED METAL

Fused Metal is our exclusive line of colored stainless steel, is created using vapor deposition technology to fuse titanium alloys at the molecular level to stainless steel substrates. Fused Metal provides the durability of stainless steel in a rich range of colors

- High durable finishes - Sandstone, Seastone, Linen & Diamond
- Color - Fused Bronze, Fused Nickel Bronze, Fused White Gold, Fused Nickel Silver & Fused Graphite
- Eco-Etch capability
- Impression capability
- Anti-Finger Print capability

VIVIDGLASS

VividGlass is our line of architectural laminated safety glass. The families within this group are highly configurable and invite you to combine different visual elements to achieve the end results you desire.

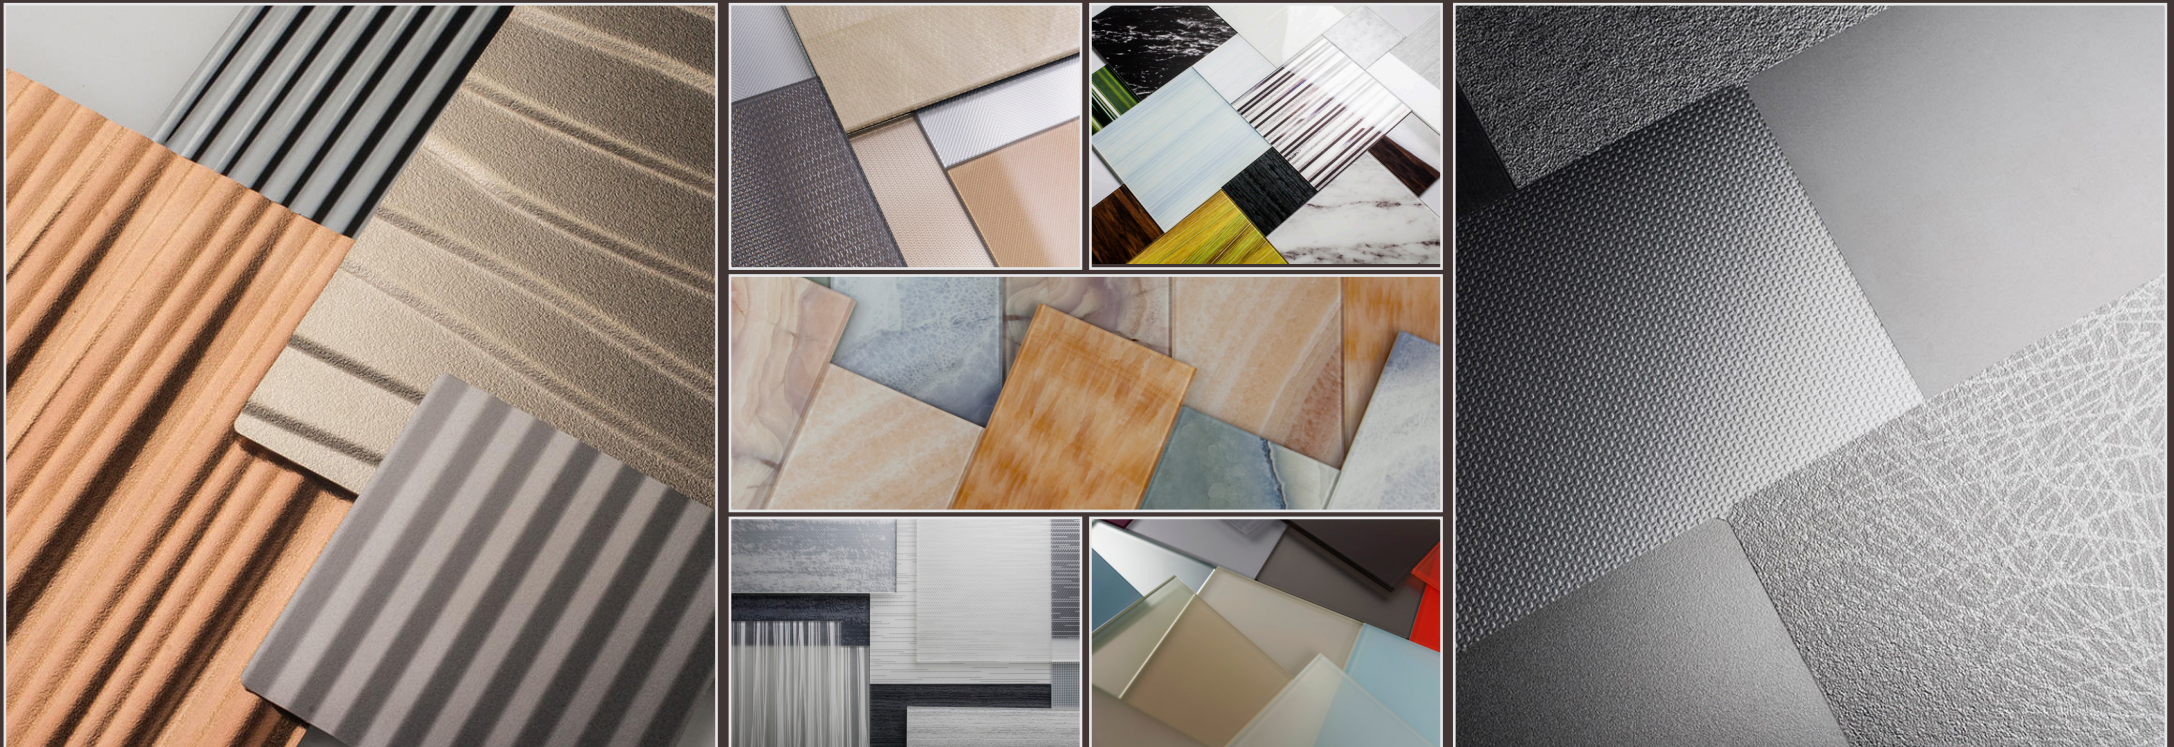

Vivid Glass Families:

- ViviChrome highlights solid color
- ViviGraphix adds graphics
- ViviSpectra features continuous tone color imagery
- ViviStrata has etched designs
- ViviStone captures the beauty of real stone in glass
- LightPlane is an engineered backlit LED panel

STAINLESS STEEL

A material unmatched in quality and beauty. Our high-durability finishes and a wide range of distinctive patterns offer limitless design and performance options for public spaces of all kinds. It's a material that aligns with our contemporary aesthetic and one we love for its superior performance, easy maintainability, long life cycle, high recycled content and recyclability.

- High durable finishes - Sandstone, Seastone, Linen & Diamond
- Eco-Etch capability
- Impression capability
- Anti-Finger Print capability

ELEVATOR HANDRAILS

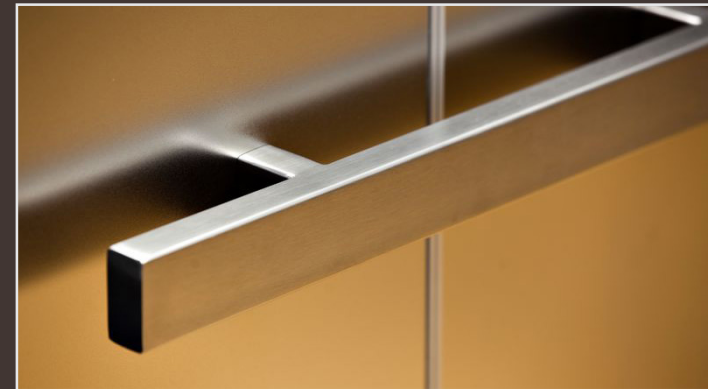

Elevator Handrails can be specified for elevator back walls and/ or side walls. While designed specifically for LEVELe and LEVELc Elevator Interiors, they can be used in other elevator interiors as well.

Different series provide a range of stylistic possibilities. Material options include stainless steel and bronze, each in a variety of finishes selected to complement other materials featured in the elevator interior.

For continuity throughout a space, our Elevator Handrails have been designed to coordinate with our Door Pull designs.

Left to right/ top to bottom:

- Round handrail in Fused Bronze Satin with Double ring standoff
- Round handrail in Fused Black Satin with Bullet standoff
- Rectangular handrail grip and standoff in Stainless Steel Satin
- Modular handrail in Satin Stainless Steel with clear anodized aluminum standoff
- Compass handrail in Fused Bronze Satin with Cylinder standoff

Select a configuration

Create your design

Deliver your vision
