

9 FINISHES · MINERAL COMPOSITE SHEET

Originals MCS

A 10' × 4' mineral composite sheet with an anti-finger, feather-touch face. Each finish is pressed in several textures — plain, weave, check and leather — so one colour can run across different planes without repeating itself.

THE COLLECTION

Originals MCS

Nine colours, each pressed in three or four surface textures. The point of the range is that the texture, not the colour, does the work – so a single tone can run from a flat shutter face to a woven feature panel and still read as one material.

Sheets are 10' × 4'. Matching 25 mm edge banding is available for every finish. Quote the code and the texture when raising an enquiry, and order the full quantity against a single batch – shades vary slightly between runs.

Feather touch

A soft, low-friction face that reads closer to powder-coat than to laminate.

Anti-finger impression

Textured matt surface breaks up prints instead of holding them.

Water resistant

Suited to kitchens, wash areas and covered balconies.

Long durability

Mineral composite core will not swell, split or delaminate like MDF.

Fire resistant

Self-extinguishing formulation; certificates available on request.

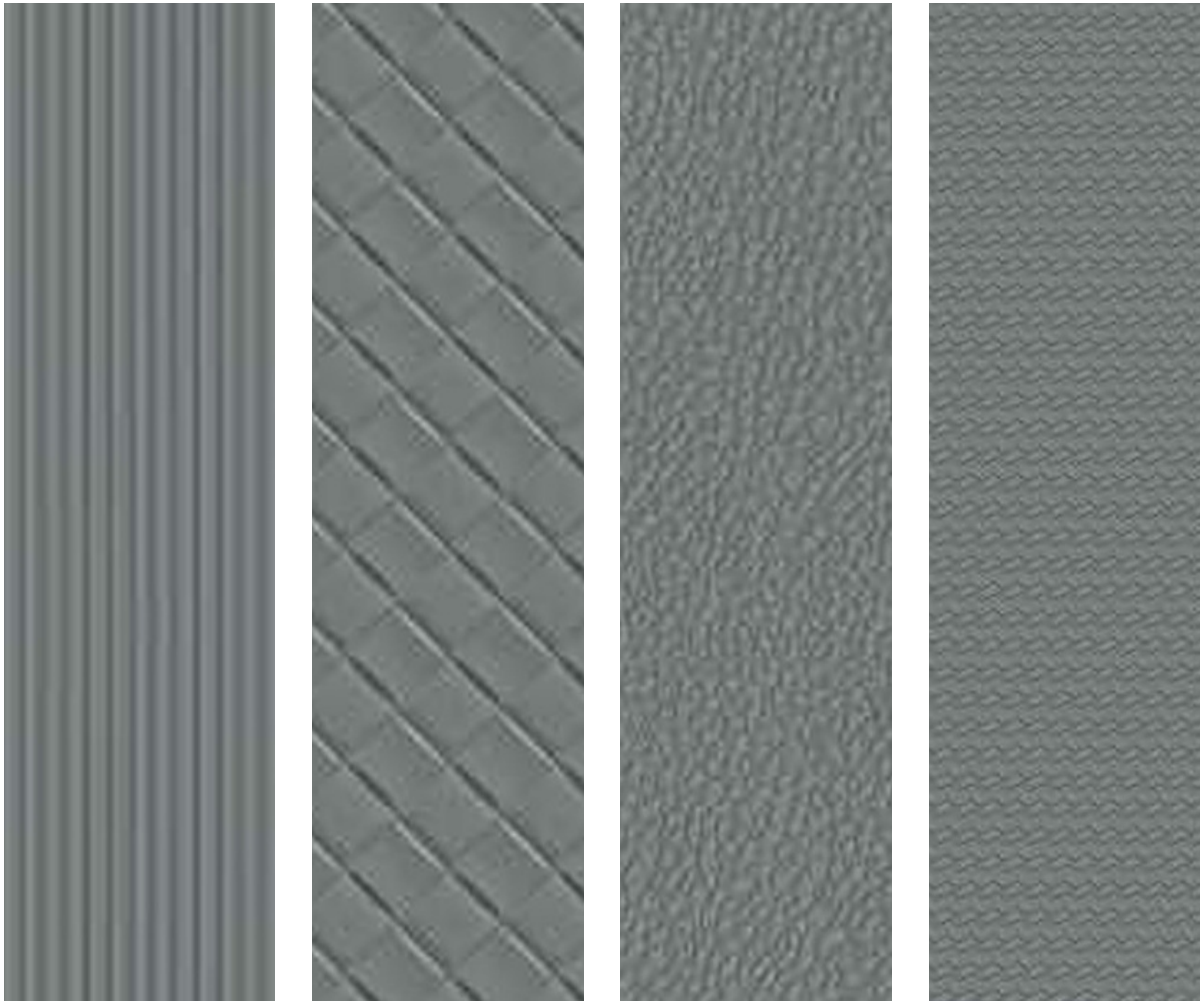

Colour stability

UV-stable decor layer holds its tone in daylight interiors.

Dry Grey

10438

A flat mid-grey that reads as raw cement in daylight and softens under warm light.

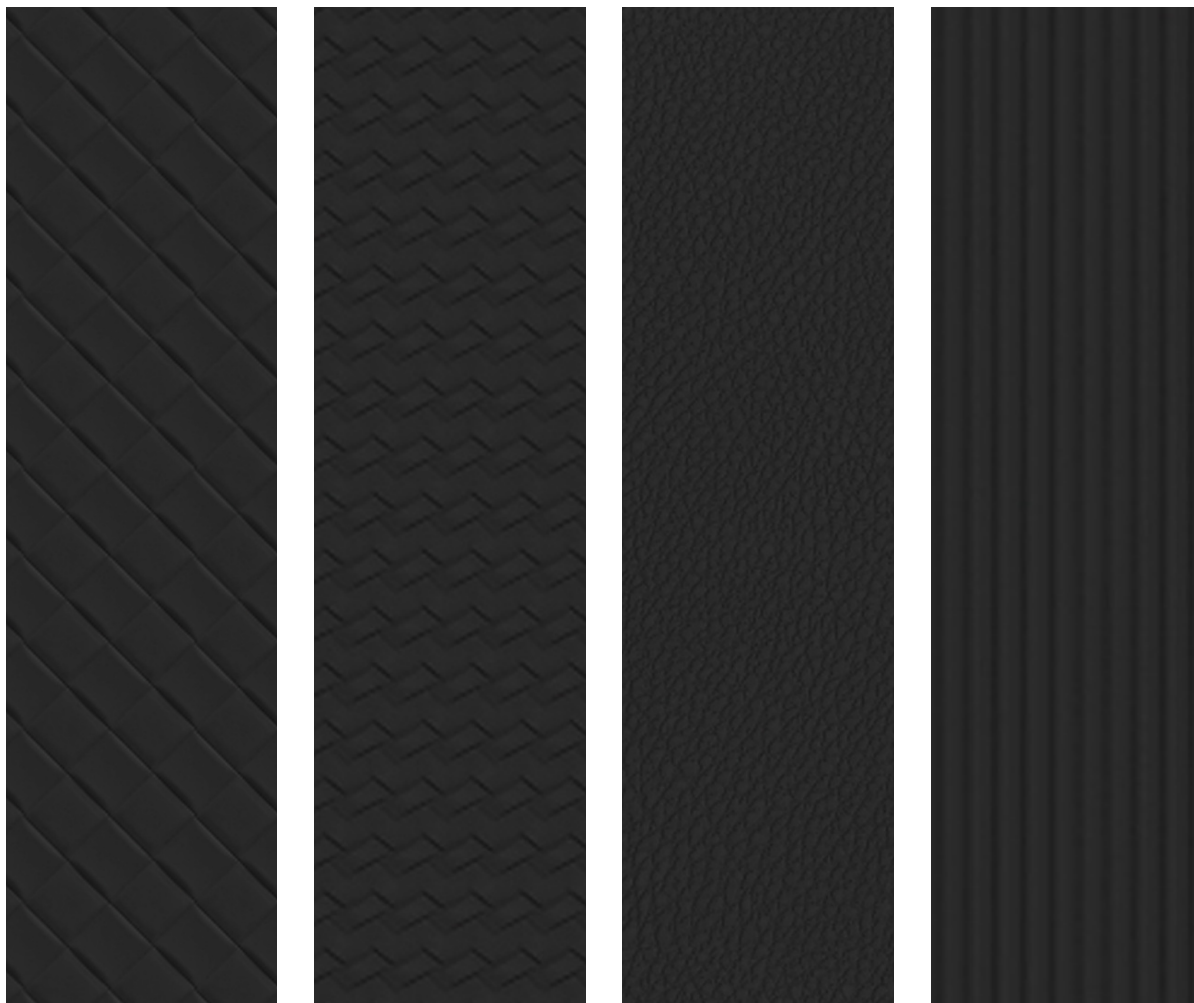

SHEET 10' × 4' · MATCHING 25 MM EDGE BANDING AVAILABLE

Charcoal

10439

Near-black with just enough warmth to avoid looking flat against timber.

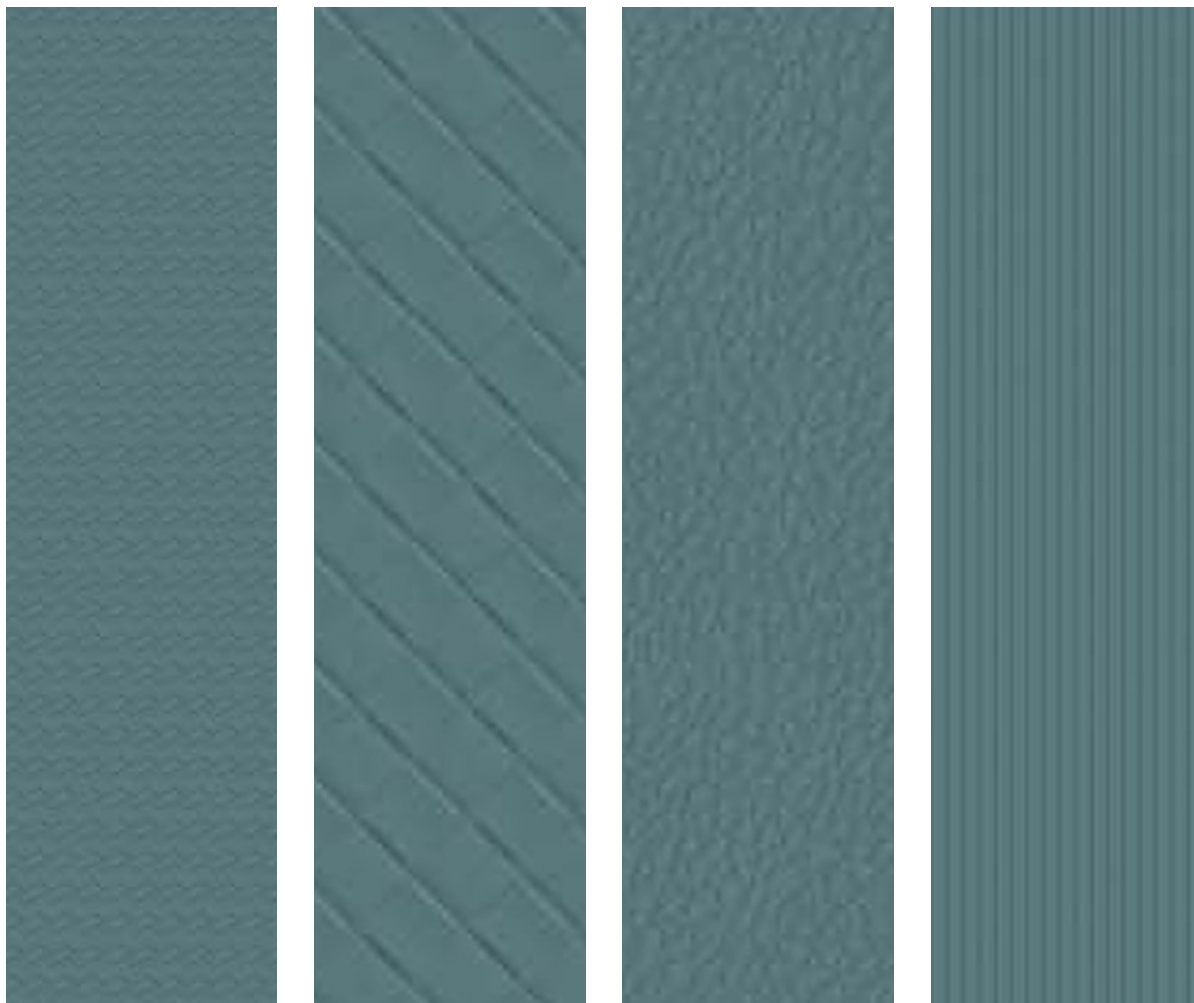

SHEET 10' × 4' · MATCHING 25 MM EDGE BANDING AVAILABLE

Sky Mist

10440

A muted blue-green — the one colour in the range that will carry a whole wall on its own.

SHEET 10' × 4' · MATCHING 25 MM EDGE BANDING AVAILABLE

Bottle Green

10441

Deep forest green. Best in small planes: shutter fronts, reception faces, niches.

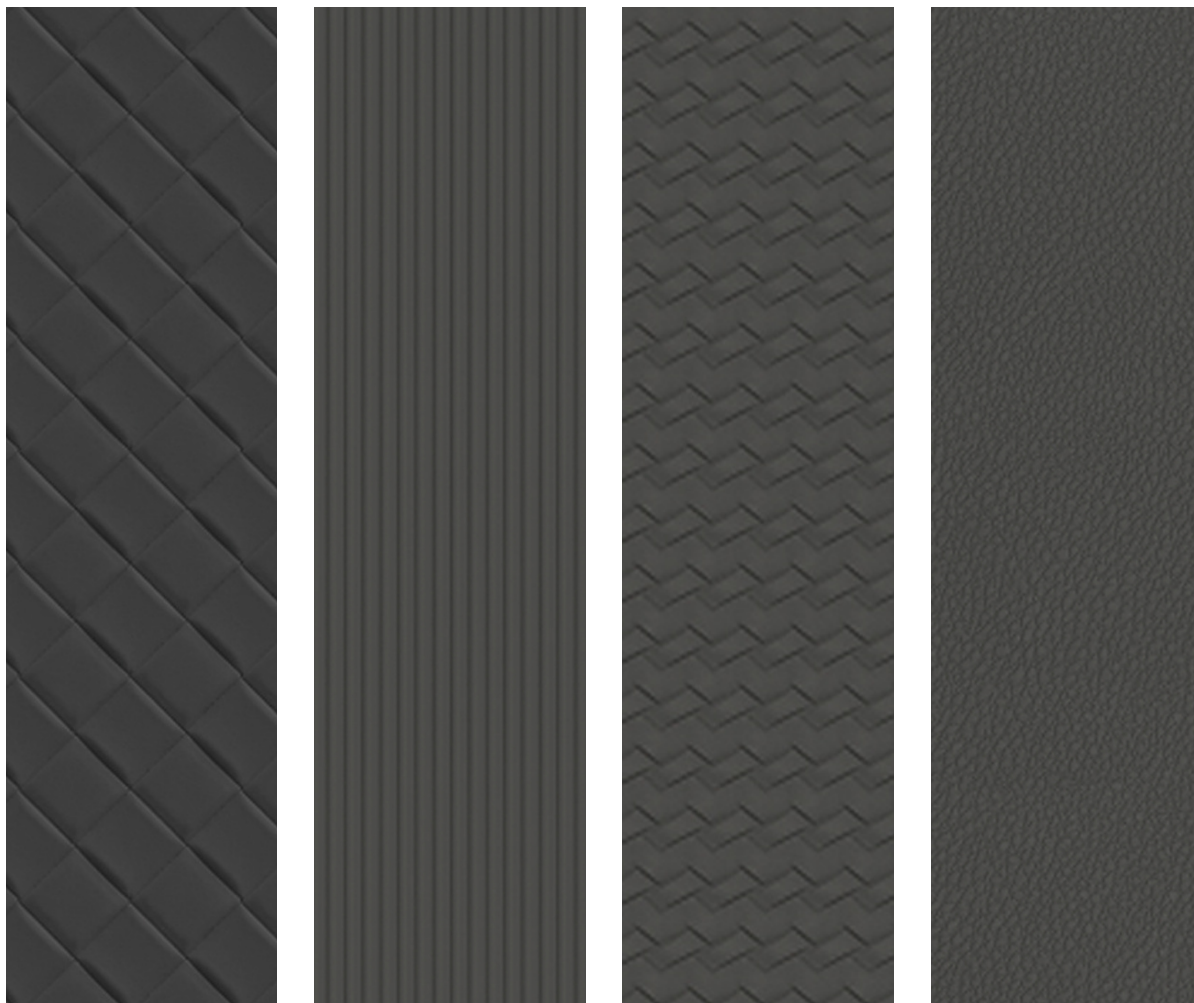

SHEET 10' × 4' · MATCHING 25 MM EDGE BANDING AVAILABLE

Cemento

10442

Dark trowelled grey, closest to bare structural concrete of anything in the range.

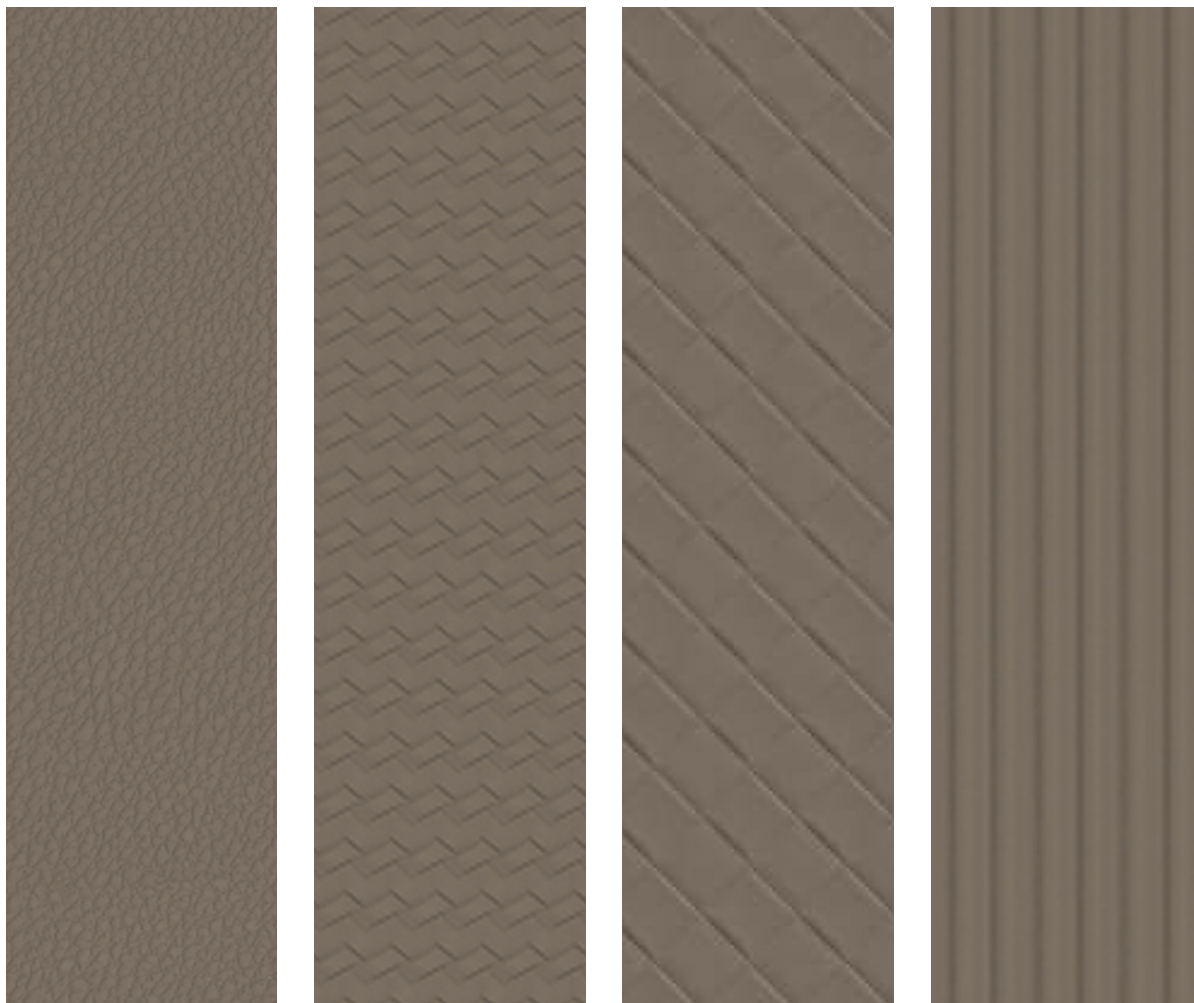

SHEET 10' × 4' · MATCHING 25 MM EDGE BANDING AVAILABLE

Mushroom

10443

Warm grey-taupe that sits comfortably between timber and stone.

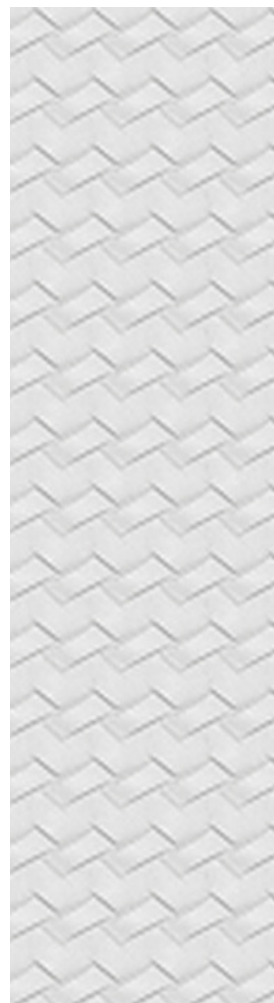

SHEET 10' × 4' · MATCHING 25 MM EDGE BANDING AVAILABLE

Warm White

10444

Off-white with a cream base, so it does not go blue against north light.

SHEET 10' × 4' · MATCHING 25 MM EDGE BANDING AVAILABLE

Web Mesh

10445 / 10446

A woven-mesh face in olive and bone — texture doing the work rather than colour.

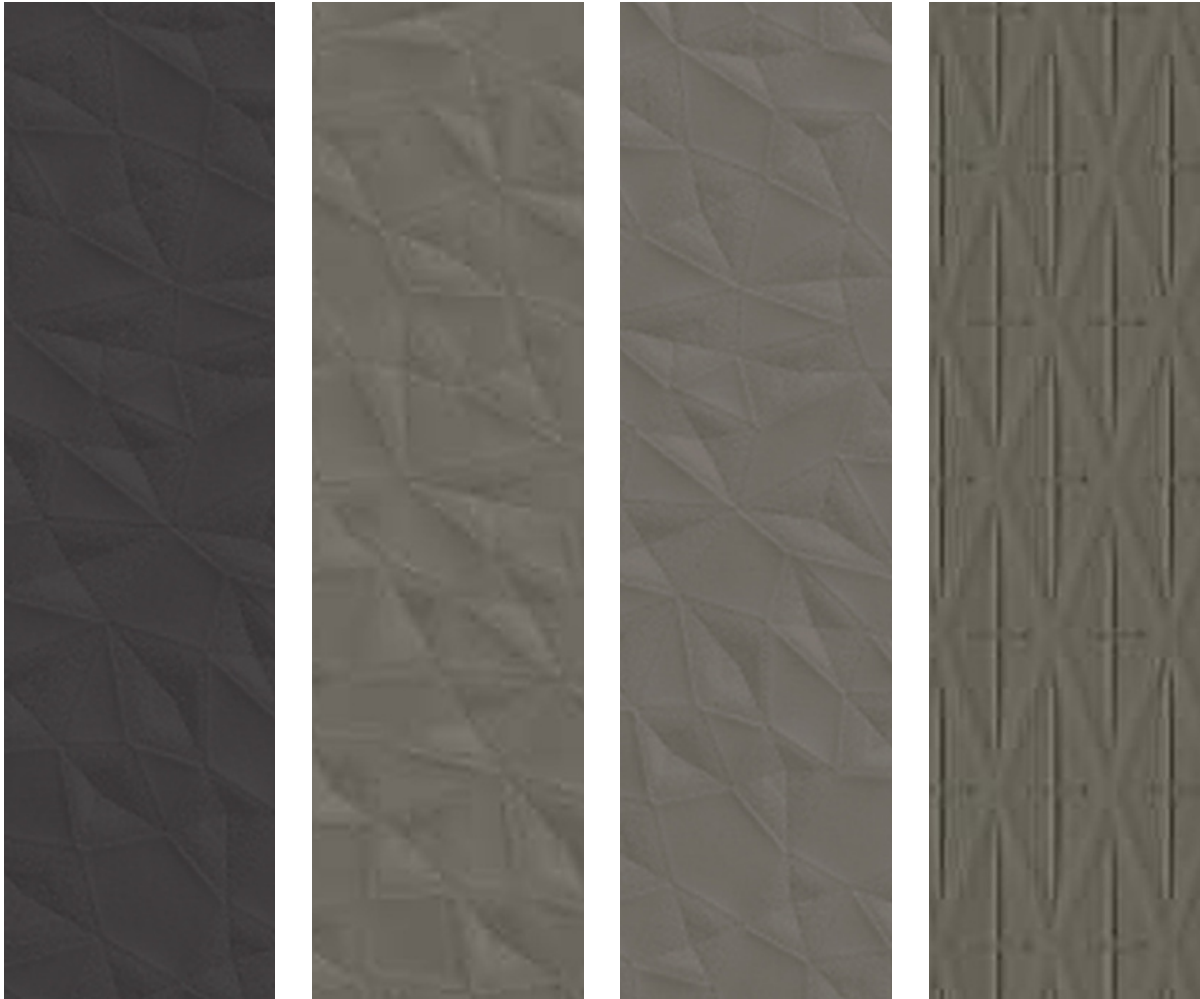

SHEET 10' × 4' · MATCHING 25 MM EDGE BANDING AVAILABLE

Officer's Choice

10452-54 DM · 3471-73 SLT

The darkest and most varied group, spanning deep greens, browns and near-blacks across leather, mesh and slate faces.

SHEET 10' × 4' · MATCHING 25 MM EDGE BANDING AVAILABLE

REFERENCE

Sizes & textures

ITEM	SPECIFICATION	TYPICAL APPLICATION
Sheet size	10' × 4' (3000 × 1220 mm)	Full-height wall panels, shutter faces, ceiling planes
Plain (PL / ST)	Flat matt face	Large flush planes where the colour should carry alone
Weave (WV)	Fine woven texture	Feature walls and reception fronts at close viewing distance
Check (CK)	Diagonal cross-hatch	Panels that need to catch raking light
Leather (LT)	Soft pebble grain	Shutter fronts, headboards, seat backs
Edge banding	25 mm, colour-matched	Exposed panel edges — one band code per finish

INSTALLATION

Fix with adhesive on a true, dry substrate, or mechanically to a battened frame at 400–600 mm centres. Allow sheets to acclimatise on site for 24 hours before installation. Set out from the most visible corner so any cut sheet lands where it will be least seen. Retain offcuts from the same batch for later repair.

CARE

Clean with a damp cloth and mild detergent. Avoid solvents, abrasive pads and steam. No wax, oil or polish is required at any point in the life of the sheet.

Premium interior and exterior surface materials — supplied, detailed and installed.
