

Ubuntu

LAMINATES

A 1.5 mm bendable, rollable interior surface: imported Scandinavian spandex over a high-performance PVC backer, printed with seventeen African textile and rock-art motifs. Tradition reimagined for the modern interior.

THE MATERIAL

Tradition, reimagined

Ubuntu is a next-generation interior surface: a high-performance PVC backer faced with premium imported spandex from Scandinavia. The result bends, rolls and resists without giving up the depth of the print — India's first surface of its kind.

FORMAT

1.5 mm
8' × 4'

Supplied as a roll. Cut with a knife or shears, fixed with contact adhesive onto ply, MDF, board, plaster or metal — flat or curved.

90° Bendable

Wraps a corner or a curved column without a joint or a cut.

Rollable

Ships and stores as a roll — no crated panels, no chipped edges.

Spandex-infused

An imported Scandinavian spandex face over a high-performance PVC backer.

Water resistant

Suited to kitchens, wash areas and humid coastal interiors.

Scratch resistant

A tough surface film that takes daily contact in public spaces.

Borer & termite free

No cellulose core, so nothing for borer or termite to feed on.

TECHNICAL

Specification

CONSTRUCTION	Imported spandex face / PVC backer	BENDING	90° without heat
THICKNESS	1.5 mm	WATER	Resistant
SHEET SIZE	8' x 4' (2440 x 1220 mm)	SURFACE	Scratch resistant
SUPPLY FORM	Rolled	BIOLOGICAL	Borer and termite free
DESIGNS	17	CUTTING	Knife, shears or fine-tooth blade
FINISH	Matt printed	FIXING	Contact adhesive on a clean, dry substrate

UBUNTU ON A FULL-HEIGHT FEATURE WALL

THE DESIGNS

Seventeen motifs, one surface
